Like a tigress Mrs. Ferry, who is a large and powerful woman, sprang at her husband the very moment the door had been burst open and before the police could interfere she had bitten off a goodly portion of his nose.

During the diversion caused by this ined tent, M. Hij polyte succeeded in offecting his oscape. Carriages were then exhied, and a procession was formed which mas to conduct the delinquent wife to St. Lavare a prison ruserved for disreputable women and for hales guilty of breaches of the seventh commandment.

On the way to jail, Mr. Ferry was formed, by the occurrenciating path of his wounded and shortened nose, to stop at a dector's for the purpose of having his wound dressed. Awing to the delay, when the police arrived at the prison guists with Mrs. Ferry, her enamifical was solused there in questing advantage of the situation she quickly prevailed upon the commissary to let her go and vanished before the arrival of her husband. CONSTITUTION MAKING.

Governor Moore of Washington territory Governor Moore of Washington serricary has issued a proclamation, as required by law for the election of delegates to the constitutional convention, to be held in Olympia on the 4th of July-anid election to take phase, but the 14th of May. This convention will consist of 75 delegates, and the political beautiful that the richer will be in a hum of bive of the territory will be in a hum of engeness and expectancy until the question as to who will be the framers of constitu-tional law for the new state shall have been

The constitution of Washington will be of professional politicians discussed a state paper of this kind, its ratification by the scople being merely a matter of form—com-paratively few voters taking the trouble to read its various provisions. It is pretty safe to say that this order will be reversed in Washington territory this year, and the number of intelligent citizens—men and who do not scan the several so tions of the constitution submitted, before

time to vote upon it, will be small indeed.

This is one of the many advantages that accrue to a commonwealth through the method of making huste slowly in the malter of becoming a state. The question, under it, discussed it, perhaps magnified the ad-vantages of statehood and desire admission into the Union. Many at least have cleur ideas about constitutional law, and intelli-gual pagement, that demands nice distinc-tious between dogmatic conservation and the whims of the self-constituted reformer. who, denouncing the old and assuming the role of champion for the new, minnames his work "progress" when it is but crude inno-

vation.

If the delagates to be chosen next menth increme a constitution for the state of Washington de not submit an instrument to the people of which their jadgment can readily approve, they will indeed prove themselves propriates the results of the tried wisuom of others, while discircting their mistakes. In this security there is certainly no lack of models from which to work in the line of constitution making. The formula is the same as when, more than a century ago, "was the neonle" did ordain and adopt the proprietes the results of the tried wisdom of itically ascredificatrument known as the astitution of the United States. Experiment has shown where this document was issufficient and where it was weak, and summed, in the form of amendments has been time to time applied. State constitutions have implicitly been more or less tive, but all serving the purp hands of wise conservation that insists upon following where public opinion tests. Profitting where public opinion tests. Profitting where advantages that the many issues its seaternit furnish, and having long contemplated the possibilities that the opportunity so soon to be presented will furnish in constitution making, the delegates who still assemble for that purpose, at Chrapha, on the one hundred and thirteenth analyteraty of A merican indexendence will anniversary of American independence, will find little difficulty in framing an instru ment that will meet the just requirements of a practically progressive and intelligent

BARLEROUS SPORT

A vast flight of ducks immigrating from the South to the great lakes was caught in a storm in Pennsylv into a few days ago and forced to descend to the strains. The peopended bust ess and rusted out to sing the birds. The dispatches state that in a single day 10,000 ducks were killed adding that the birds were unfil to eat.

Humane societies evidenly have yet a great work to do in subdiaing the tendency to not in destruction when hely less, harm less animal life is thrown upon human mercy Such laughter is deprived of yen the exciting element of sport, since he prey is easy, and utterly defenseless. Nothing but the most wanten barbarity can cause men to saily out gun in hand, to kill birds chase forhish and even ferocious as it is has semblance of excuse in the slight oppor tunity that the Binters give the animal to escape But there is none whatever in the so called port that shoot into a flock of birds vount, ng and ki ling it em as chance wais merely for pastime

Wanannker som or late, will have to get out of Harrison's cabinet. He wants to appoint one kield posimarter of Phindel phis. Field is a rich merchant, nominally a republican but has the "ree trade" burn bee buzz ng in his bonnet. Wanamaker has the narrow brain of a trader and know ine that Field is a good husiness man wants to appoint him potimester of Philadelphia The absurdity of this proposition is evident when we remember that field is a republican mugwump At a meeting of the Board of Trade of Philadelphia held a year ago,

when a resolution was offered endorsing Field made a speech in its fivor and voted for the resolution, which, however, was defeated by a large majority Of course, if Wanamaker had a particle o political sense he would see that the nomin uton of a mug wamp, like Field, was an absurdity under wamp, like Field, was an absurdity under an administration that was placed in power by the votes of men who utterly rejected Cloveland's tariff message The trouble with Wanamaker is that be thinks like a trader because he cannot limb like a statesman He knows that Field is on able, and honest man of husiness and he wants him for a clerk, but forgets that the postmaster of a city of a nullion of people quent to be a man in full

She waited once in the chill air too long, taking cold at a critical time when her relaxed system needed warmth and caution Headache, cough, hectic fever and pain drove romance away; she

grew paler than the pale moon, and even her lover grew indifferent, seeing her coarms of person disappear. Taking Dr. Pierce's Favorite Prescription and his "Golden Medical Discovery," alternately each day for a few weeks, the suppressed functions of her delicate nature were restored to activity, the troublesome cough controlled and health, beauty and lover returned to her. The "Favorite Prescription" tones up the system, thereby restoring and regulating suppressed functions while the "Golden Medical Discovery" is a sovereign remedy for all Coughs, Colds, Bronchial, Throat and Lung affections. These medicines are the only guaranteed remedies for the diseases for which they are recommended. Money paid for them is promptly refunded, if, on fair trial, they do not benefit or cure. WHEAT—The market is weak and raics about the same. Eastern mail dates report that news of min in the Northwest favors those who hope for a good crop of spring wheat this year, but some dispatches from that section say it was "not enough to hurt" and not sufficient to do much good. The stocks at twelve leading ports of the United Kingdom the beginning of this mouth equalled 11,333, 400 bushels wheat and the flour equivalent of 423,000 bushels wheat and the flour equivalent of 493,000 bushels wheat. The total of these is not far from equal to the corresponding quantity one year previously. It is said that not a single grain charter has yet been made this season at Duluth. What are they waiting for? There is little or no foreign quilet for rye until some adjustment of prices is possible, with No. 2 about 18c above the German merket. Byet's quoted in Hamburg at 50c per bushel, and from this must be deducted its caproximately for carrying charges, and an import duty, which is really restrictive, of some Se. The shipments of wheat from India keep up. Those of has week were about 500,000 nushels against 240,000 bushels for the corresponding week in 1882. 333,000 bushels wheat. The total of these is not

At he first lecture Monday aftermoon, not over built a dozen gentleman were to be seen, but last a gin nearly one fourth of the entire auditence aus of the male persuasion and they now interested appendance to at that The auditence last night, perhaps owing to the counter struction of the Hemdelssohn Quintetti (tab at Masonie hall, was not very large.

It was 8. M when Mrs. Miller attired in a next fitting evening dress with train slope of upon the platform. She moves with an elasticity of step and a natural grace that few siage women ever acquire. There is edmont for highlin in her every movement. The gist of Mrs. Millers talk was in the main a repetition of her Monday lecture. Seeing so many gentlemen present, she taked that in becure would be addressed to them principally. Her reason so heaving to pertail to the sterner sex was the solid to entire the main of the sterner sex was the solid to expect the monthly of the mannity as the all in provement. It is the underlying question of main fine fine portain bather on dress in provement. It is the underlying question of similar importance of pedigree, and serve grace and beauty are considered in connection with the in provement of all animals except the human family rhe question is whether women shall be strong health; and well proportioned of discount and subject to cut and visious appearable, we discount and subject to cut and visious appearable, when you discount in the relations to more neglected.
